

Question A

A model that allocates which mail folder an email should be sent to (work, friends, promotions, important), like Gmail's inbox tabs

This would use the NLP application: Text Classification

Question B

A model that helps decide what grade to award to an essay question. This can be used by a university professor who grades many classes or essay competitions.

This would use the NLP application: Automatic Summarisation

Question C

A model that provides assistive technology for doctors to provide their diagnosis. Remember, doctors ask questions, so the model will use the patients' answers to provide probable diagnoses for the doctor to weigh and make decisions.

This would use the NLP application: Question Answering
